

How to achieve Maximum Weight with Light Performance in Fancy Shapes
Training Program (Contact: Arun Shekhawat +91 9825558881)
Markers / Signer / Polishers / Sarin Operators / Helium Operators

Dear Clients,

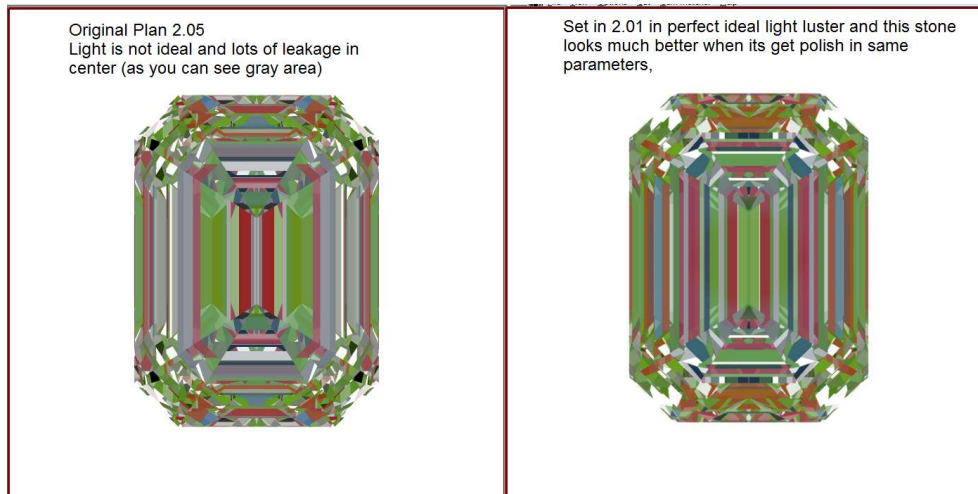

Let's unfold the mystery of getting maximum weight in fancy shapes while rough planning.

As we all know that GIA is not giving Cut grade for fancy shapes so we always have scope of getting more weight in fancy shapes. Sometimes it happen that polisher use his skill and get more weight in fancy shapes, so we always try to find way to learn from polisher and do same thing while planning such skills and knowledge help us to manufacture stones quickly and easily with proper guidelines.

- As you know that, our team is working for such stones since last 3-4 years and very successfully we polisher some unbelievable stones which not showing weight at planning stage.
- Now we are ready to share those skill and technique to all of you who want to learn this.

Below are points which we want to make our client's understand first before they start using this skill, because wrong knowledge or half knowledge always kill beauty of diamond's.

| Nos | Points for training |
|-----|--|
| 1 | Give completed Knowledge of Fancy Shapes important parameters which help us to get more weight in Sarin or Smart Recut. |
| 2 | Give completed knowledge of checking light performance at rough stage and improve light with weight while planning in Sarin or helium smart recut. |
| 3 | Take live stones and explain how to get extra weight in required parameters and light performance |
| 4 | Give complete training of Sarin / helium smart recut parameters settings |
| 5 | Provide details light performance chart for all shapes which helps to get more weight by going beyond limits. |
| 6 | How to do smart recut in Sarin / Helium Smart recut using our parameters. |

Participate also come with their own stones to see live how we help them to improve weight with light performance.

Bring stones which you want to achieve pointer with light performance.

(Stones and there galaxy files need to send 2 days before meeting)

Below are Fees for training:

| Nos | IF you already using our fancy software | Fees |
|-----|---|-------------|
| 1 | Per Person / participate (Training conduct in our premise in group of 10 people maximum in each batch) | 22,500.00 |
| 2 | Group Training Training conduct in your premise in group of 10 people maximum per session | 1,25,000.00 |

Below are Fees for training:

| Nos | (IF you are not using our fancy software | Fees |
|-----|--|-------------|
| 1 | Per Person / participate (Training conduct in our premise in group of 10 people maximum) | 45,500.00 |
| 2 | Group Training Training conduct in your premise in group of 10 people maximum per session | 3,25,000.00 |
